

Layouts Options for the Medallion Border of the Month Project

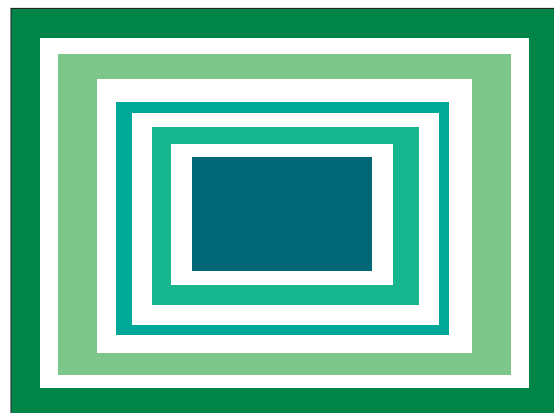

Different coloured borders represent different floating strips and borders, patterns to be chosen.

Starting with a square centre piece (block, applique, panel), you would work out from the centre with different borders and floating strips to create your finished project.

You can also use your centre square **ON POINT** for a different look.

Rectangle panels or centres can be horizontal or vertical.

These examples were taken from Pinterest (copyright information given). Just some ideas to get your creative spirit running.....

Marcelle Medallion Quilt

About

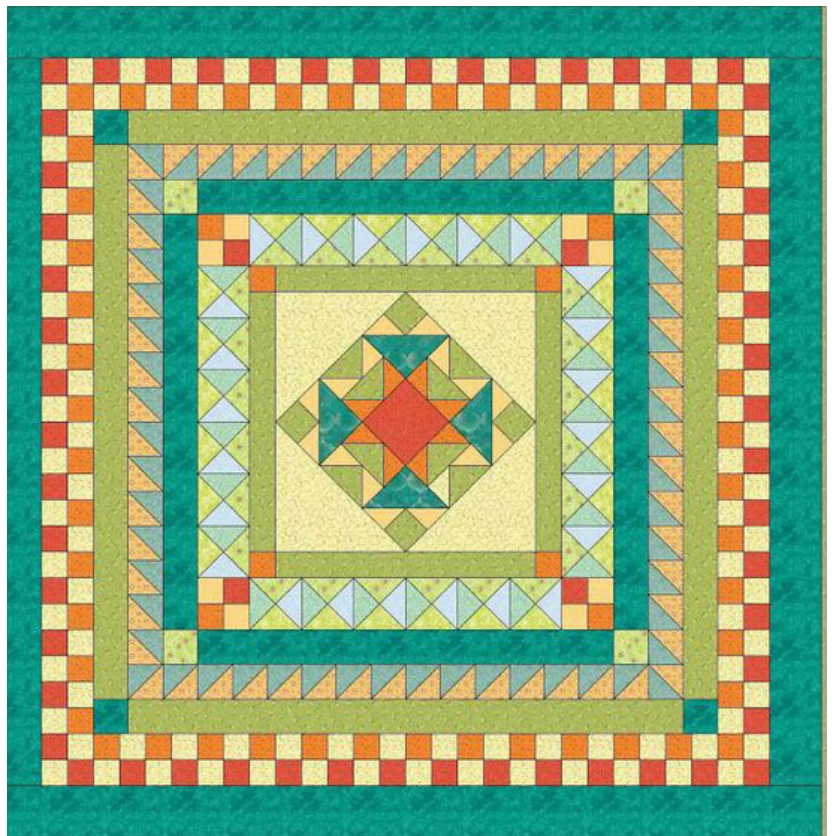

My name's Tiffany. I live in Washington, D.C., but came from the Midwest and love both Chicago (where I've spent most of my adult life) and South Dakota (my childhood home). I started this blog as a way to bring balance to my life since lawyering requires a different kind of creativity. I am constantly learning new techniques and expanding to projects other than quilting. I'd love to hear from you! Leave a comment on any post or email me at dakotapatchwork@gmail.com. You can also check me out on Pinterest ([tiffany_travels](#)) and Instagram ([tiffanytravels](#)).

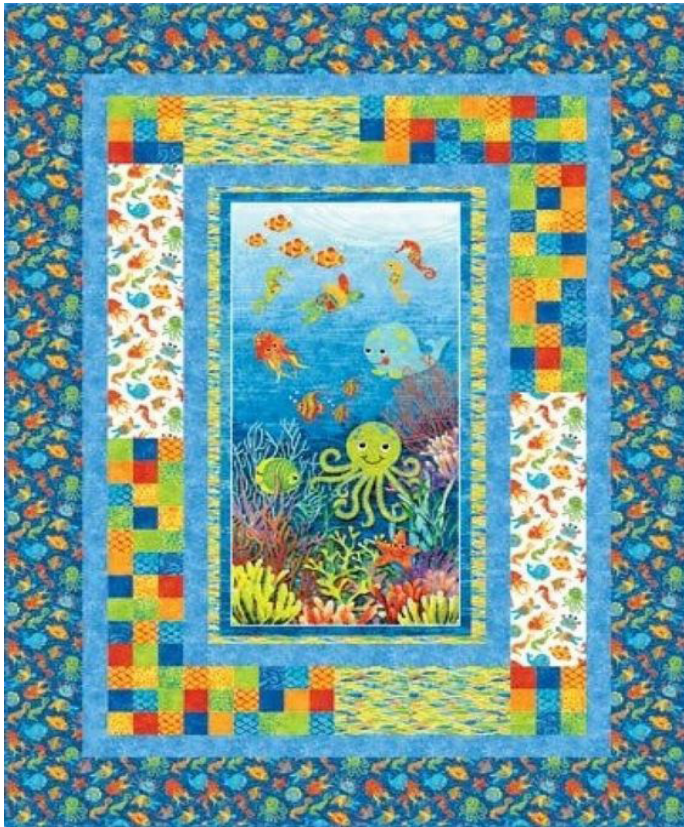

Cat Bird Quilts

Free Quilt Design #1 | Queen Medallion

I love designing and creating new ideas for quilts. But I'm like you — I have lots of ideas for quilts I'll never make. Here is a design you are welcome to use. (Don't sell ...)
